

REMARKS

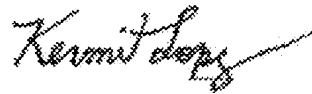

I. Drawing Inconsistency With Specification

In the "Notice of Drawing Inconsistency With Specification" dated April 18, 2008, it was indicated that the FIG. 21 contained in the drawing is not listed in the Brief Description of the Drawings in the specification. The specification has therefore been amended as indicated herein so that FIG. 21 is now listed in the Brief Description of the Drawings. That is, paragraphs [0058] and [0059] of Applicant's specification have been amended to insert a paragraph between paragraph [0058] and [0059] that references the FIG. 21 drawing. Additionally, paragraph [0059] has been slightly amended to replace the period at the end of that paragraph with a semi-colon for consistency with the other figures indicated in the Brief Description of the Drawings section. Therefore, the Applicant submits that the inconsistency indicated in the "Notice of Drawing Inconsistency With Specification" dated April 18, 2008 has been corrected.

II. Conclusion

Should there be any outstanding matters that need to be resolved, the Examiner is respectfully requested to contact the undersigned representative to conduct an interview in an effort to expedite prosecution in connection with the present application.

Respectfully submitted,

Dated: April 28, 2008
